

Environmental Protection Agency's (EPA) Water Technical Assistance (WaterTA): Helping Communities Access Funding

**December 12th, 2023
2:00–3:00 PM ET**

Every community deserves access to clean, safe and reliable drinking water, wastewater, and stormwater services. Yet too many communities across America—in rural, tribal, suburban, and urban areas—struggle to address water infrastructure needs and obtain funding.

EPA's Water Technical Assistance provides free hands-on support for communities to assess their water needs, identify potential solutions, and apply for federal funding to address their water challenges.

Join us on December 12th, 2:00pm ET, for an informational webinar about WaterTA and available resources to help ensure every community has access to funding.

For more information on WaterTA, please visit www.epa.gov/WaterTA.
